

PRO SERIES II™

MEGA DER RED MAX™

Prepare for liftoff with the Pro Series II™ Mega Der Red Max™—a bold, super-sized tribute to the classic favorite! Towering over its predecessor, this impressive upscale model rocket brings nostalgic design to a whole new level. What truly sets the Mega Der Red Max apart is its unique 3-cluster 29mm engine mount, delivering maximum thrust and visual impact for dramatic lift-offs. Built for experienced rocketeers, this rocket combines outrageous power, distinctive styling, and the rugged performance expected from Estes Pro Series II kits. Whether you're a collector or a serious flier, the Mega Der Red Max is your ticket to big-time excitement on the launch pad.

- Powered by three 29 mm engines
- Impressive upscale of the classic
- High quality vinyl decals
